

MATERIAL SAFETY DATA SHEET

Date of Issue: 07.12.2007

STATEMENT OF HAZARDOUS NATURE

Not classified as hazardous according to criteria of Worksafe Australia

COMPANY NAME & ADDRESS

Multicrop (Aust.) Pty. Ltd.
PO Box 302
Bayswater
Victoria 3153,

Tel : (03) 8720 2100
Fax : (03) 9720 5051
Poison Information Centre Tel : 13 11 26

PRODUCT IDENTIFICATION

Product Name : **MULTICROP PYRETHRUM + EUCALYPTUS INSECT SPRAY (RTU)**
U.N. Number : Not Applicable.
Hazchem Code : Not Applicable.
Dangerous Goods Class : Not Applicable.
Poisons Schedule : Not Applicable.
Active Constituents : Pyrethrins; Piperonyl Butoxide; Eucalyptus Oil
Active Constituents Qty : 0.3g/L; 1.2g/L 10g/L
CAS Nos. : 121-21-1, 51-03-6; 470-82-6

Use : Multicrop Pyrethrum Plus Garlic Insect Spray is a contact insecticide. It is based on pyrethrins, which are extracted from dried flowers. This product is safe to the environment, is non residual and has very low mammalian toxicity (one of the least toxic domestic insecticides available). Multicrop Pyrethrum Plus Eucalyptus Insect Spray is an effective insecticide, insect repellent and flushing agent. Pyrethrins are well known for their rapid action, lack of insect immunity, broad spectrum activity and lack of persistence. Eucalyptus Oil some insecticidal activity as well as a proven repellency. Piperonyl Butoxide is added to improve the performance of the pyrethrins.

PHYSICAL PROPERTIES & DESCRIPTION

Appearance	: Milky, white liquid.
Boiling Point (760mmHg)	: Similar to water.
Corrosiveness	: Non-corrosive.
Evaporation	: Minimal.
Flammability	: Non-flammable.
Flash Point (°C)	: Not applicable.
Odour	: Distinctive smell of Eucalyptus Oil.
Oxidizing/Reducing	: None.
pH	: Not Applicable.
Solubility (% by wt)	: 99-100%.
Specific Gravity	: Approx. 1.00.
Stability	: Very stable. After application readily breaks down on exposure to direct sun light and air. Depending on conditions and point of application, can remain viable from one to seven days. Eucalyptus Oil has added persistency.

HEALTH HAZARD INFORMATION

Health Hazard	: Practically non-toxic to man and animals, generally low-irritant to mammals or birds is non-carcinogenic and non-mutagenic. Dermal absorption is very low. Toxic to fish.
---------------	---

HEALTH EFFECTS:

Ingestion	: Large volumes ingested may cause some gastro-intestinal disturbances shown primarily as irritation to mouth, throat and stomach. Vomiting and/or diarrhoea may occur.
Eye	: May cause moderate and transient irritation.
Skin	: Very poor dermal absorption occurs and is generally non-irritating.
Inhaled	: Non irritant.

FIRST AID:

Ingestion	: Do not induce vomiting; give large quantities of milk (preferred), or water. With any abnormalities seek medical attention.
Eye	: Irrigate with copious quantities of water for at least 15 minutes. With persistent irritation seek medical attention.
Skin	: Remove contaminated clothing and wash skin and clothes and clothes with plenty of warm water and soap.
Inhaled	: Non-irritant. If irritation occurs, remove person to fresh air and rest.
Notes to Physician	: Treat symptomatically.

PRECAUTIONS FOR USE

- Personal Protection : Maintain good personal hygiene. Wash contaminated clothes and skin with warm water and soap.
- Ventilation : Natural ventilation is sufficient to remove any vapours. Open windows and/or doors, etc. as is necessary.
- Flammability : Non-flammable.
