

MATERIAL SAFETY DATA SHEET

Date of Issue: 07.12.2007

STATEMENT OF HAZARDOUS NATURE

Not classified as hazardous according to criteria of Worksafe Australia

COMPANY NAME & ADDRESS

Multicrop (Aust.) Pty. Ltd.
PO Box 302
Bayswater
Victoria 3153

Tel : (03) 8720 2100
Fax : (03) 9720 5051
Poisons Information Centre Tel :131126

PRODUCT IDENTIFICATION

Product Name	: Multicrop Pyrethrum Long Life Insect Spray (Ready to Use)	
UN Number	: Not Applicable.	
Hazchem Code	: Not Applicable.	
Dangerous Goods Class	: Not Applicable.	
Poisons Schedule No.	: Not Applicable.	
Active Constituents	: Pyrethrins	Piperonyl Butoxide.
Active Constituent Qty	: 0.9 g/L	3 g/L.
CAS No.	: 121-21-1, 121-21-9	51-03-6

Use: Multicrop Pyrethrum Long Life Insect Spray is a contact insecticide. It is based on Pyrethrins, which are extracted from dried flowers. The pyrethrins have been stabilized to provide an effective, environmentally responsible insecticide that has greater persistency. This product is safe to the environment, is non residual and has very low mammalian toxicity (one of the least toxic domestic insecticides available). Multicrop Pyrethrum Long Life Insect Spray is an efficient insecticide, insect repellent and flushing agent. Pyrethrins are well know for their rapid action, lack of insect immunity and broad spectrum activity. Now, however, the pyrethrins are stabilised so that when applied, they remain active for much longer than previously possible. Piperonyl Butoxide is added to improve the performance of the Pyrethrins.

PHYSICAL PROPERTIES & DESCRIPTION

Appearance	: Clear to light amber liquid.
Boiling Point (760mmHg)	: Similar to water.
Corrosiveness	: Non-corrosive.
Evaporation	: Minimal (water only).
Flammability	: Non-flammable.
Flash Point (°C)	: Not Applicable.
Odour	: Mild, sweet, vegetable smell.
Oxidizing/Reducing	: None.
pH	: Similar to water. : 8.2
Solubility (% by wt)	: 100.
Specific Gravity	: 0.98 to 1.002.
Stability	: Very Stable. After application readily breaks down on exposure to direct sun light and air. Depending on conditions and point of application, can remain viable for up to 20 days.

HEALTH HAZARD INFORMATION

Health Hazard	: Practically non-toxic to man and animals, non-irritating to mammals or birds and is non-carcinogenic and non-mutagenic. Dermal absorption is very low. Toxic to fish.
---------------	---

HEALTH EFFECTS:

Ingestion	: Product is quite rapidly metabolised in mammals and no tissue accumulation occurs. Large volumes ingested may cause some gastro-intestinal disturbances.
Eye	: May cause moderate and transient irritation.
Skin	: Very poor dermal absorption occurs and is generally non-irritating.
Inhaled	: Non-irritant.

FIRST AID:

Ingestion	: Do not induce vomiting, give large quantities of milk (preferred), or water. With any abnormalities seek medical attention.
Eye	: Irrigate with copious quantities of water for at least 15 minutes. With persistent irritation seek medical attention.
Skin	: Remove contaminated clothing and wash skin and clothes with warm water and soap.
Inhaled	: If irritation occurs, remove person to fresh air and rest.
Notes to Physician	: Treat symptomatically.

PRECAUTIONS FOR USE

- Personal Protection : Maintain good personal hygiene. Wash contaminated clothes and skin with warm water and soap.
- Ventilation : Natural ventilation is sufficient to remove any vapours. Open windows and/or doors, etc as is necessary.
- Flammability : Non-flammable.
- Storage : Shake well before use.

SAFE HANDLING INFORMATION

- Spillage : Wash spills with plenty of water.
- Disposal : Washings can be collected and spread around garden beds and plants.
- Storage/Transport : Store in original, tightly closed container, in a cool, dry, dark area. Avoid extreme
- Fire Hazard : None.
- Explosion Hazard : None.
- Other Information : This product is biodegradable and leaves no harmful residues.

DISCLAIMER

This Material Safety Data Sheet has been developed according to Worksafe Australia / NOHSC Guidelines.
